CAREER SUMMARY

Information Technology graduate with hands-on experience in C#, ASP.NET Core, SQL Server, and software development. Developed web-based applications with database integration, CRUD operations, and Docker-based deployment. Strong foundation in OOP, REST APIs, DSA, and backend development, along with practical IT support experience in a hospital environment. Seeking a Junior .NET Developer or Software Developer role to apply technical skills and contribute to building reliable software solutions.

PROFESSIONAL EXPERIENCE

SOLTECH TechServices Pvt. Ltd.

Technical Support Engineer (Oct 2026 - Present)

- Provide Tier 2 technical support and troubleshooting for IP CCTV cameras, Video Management Software (VMS), video analytics systems, and IT infrastructure.
- Configure and troubleshoot TCP/IP, DNS, DHCP, firewalls, port forwarding, VPN connections, and network connectivity for secure and reliable video surveillance systems.
- Work with IP cameras, ONVIF/RTSP protocols, and VMS platforms including TRASSIR for system configuration, monitoring, and troubleshooting.
- Diagnose hardware, software, network, and system-performance issues and provide remote and on-site technical support.
- Use basic Python scripting for system diagnostics, automation, event triggers, and VMS integrations.

Apex Kidney Care Pvt LTD, Bhopal

Executive ADMIN (Feb 2026 - June 2026)

- Overseeing administrative operations and daily center activities.
- Managed daily operations of a dialysis center, coordinating administrative and clinical teams to improve efficiency.
- Prepared MIS reports and maintained accurate operational and patient records.
- Coordinated patient scheduling, billing, documentation, inventory, and vendor processes.

Bansal Hospital, Bhopal

Executive (Feb 2024 - Dec 2025)

- Provided technical support for desktops, printers, and network devices across a NABH-accredited multi-specialty hospital.
- Installed, configured, and maintained computer systems and peripheral devices.
- Troubleshoot hardware, software, and network connectivity issues for end users.
- Managed user accounts, system access, and IT asset inventory.

TECHNICAL SKILLS

Languages: C++, C#

Backend & Frameworks: .NET Core, ASP.NET MVC

Databases: SQL Server, MySQL

Tools & Platforms: Git, Github, Azure, Docker

Concepts: OOP, REST APIs, DSA(C++)

IT Support: Desktop & peripheral setup, network troubleshooting, user account & asset management

EDUCATION

Bachelor of Technology (Information Technology)

Technocrats Institute of Technology, Bhopal

CGPA : 8.69 / 10 | 2020 - 2024

Saraswati Shishu Mandir Maharajpur, Sagar

Aggregate:89.60% | 2020

Saraswati Shishu Mandir Maharajpur, Sagar

Aggregate:93.80% | 2018

PROJECTS

Hospital Management System

ASP.NET Core, C#, SQL Server, Docker, HTML/CSS/Bootstrap

- Developed a web-based hospital management application for handling patients, doctors, departments, appointments, and billing.
- Implemented CRUD operations and database integration using ASP.NET Core and C#.
- Designed a responsive web interface with organized dashboards and navigation for hospital staff.
- Dockerized the application using Docker Compose to simplify setup and deployment across environments.
- Tested the complete application locally using a containerized development environment.

Face Recognition Based Attendance System

Tech Stack: Python, OpenCV, LBPH Face Recognizer, MySQL

- Built an automated attendance system using real-time face detection and recognition (Haar Cascade + LBPH).
- Integrated a MySQL database to securely manage student records and attendance logs, reducing manual record-keeping efforts.
- Optimized image preprocessing and recognition workflows to improve system performance and ensure reliable attendance tracking.

CERTIFICATIONS

-Python for Data Science and Machine Learning

-HackerRank SQL (Intermediate)
